Re: MB Docket No. 04-233

Dear Ms. Dortch:

I am writing to you as the Founder of the One Small Voice Foundation. The One Small Voice Foundation is a 501c3 organization that raises funds for pediatric research being conducted on optic nerve hypoplasia and hydrocephalus.

The One Small Voice Foundation works very closely with a local radio station 101.9FM The Mix. The foundation is very family oriented and views The Mix as an extension of its family. 101.9FM The Mix is an amazing part of the Chicago land community – our foundation is a major supporter of Children's Memorial Hospital Chicago. All of the funds we raise for hydrocephalus research go directly to research being conducted at Children's Memorial Hospital. The Mix not only helps support our fundraisers through PSA's, The Road Crew and donations to events they host the Eric and Kathy 36 Hour Radiothon for the hospital. The involvement of the 101.9FM in the Chicago land community doesn't stop here.

The radio station plays an important part in the success of our organization. The station regularly airs PSA's supporting our organizations events and mission to support pediatric research at Children's Memorial Hospital in Chicago. In addition, we are not only partners of with the Mix but listeners of the station and they provide outstanding coverage of local news stories, natural disasters, local elections and other important emergency alerts.

In conclusion, 101.9Fm The Mix serves the One Small Voice Foundation needs and the One Small Voice Foundation sees no need for additional rules or reporting requirements that insert federal oversight of the process of broadcasters serving the community.

Respectfully submitted,
Debbie Katzbeck
President and Founder
